

EXAM MASTER OnLine™

Your partner for testing excellence™

EXAM MASTER OnLine™ provides customized exam preparation and review that is easily tailored for Institutional and Academic requirements. The system combines a powerful test engine with a large medical and health science question bank.

Aspiring health care professionals can take realistic computer-based exams, receive scoring diagnostics, review detailed explanatory text, and track results, all conveniently online.

Institutional Version:

Provides affordable access for as many health science students, residents and practicing physicians as needed. Users have independent access via a custom gateway set up for your institution. Flexible pricing and detailed usage statistics make this an easy-to-manage health sciences resource. Used by medical libraries, schools of medicine, teaching hospitals, physician assistant, pharmacy and dental programs nationwide.

Academic Manager™

Provides health sciences faculty with the ability to create and assign exams to students via the web. Faculty can use our question bank or add their own questions to the system. Detailed scoring available by class and by student.

- ◆ Large medical and health science question bank
- ◆ Easily administer and track exams
