Patel Jay	Family Medicine, Yakima, WA	Patel Prerak	Family Medicine, Grand Rapids, MI
Sandrasagra Melissa	Family Medicine, Omaha, NE	Um Dennis	Family Medicine, Chicago, IL
Wijeyakumar Venetia	Internal Medicine, Chicago, IL		

## SJSM SOCIAL MEDIA PAGES

Social Medias are an essential means of communication in today's ultra-modern technical society to stay connected with news and events globally. SJSM is definitely not oblivious to this concept and has employed a special team dedicated to keeping our students well informed. So if you haven't already, please check out our new Facebook fan page, the SJSM Blog and the YouTube channel. These can be accessed from the SJSM main website ([www.sjasm.org](http://www.sjasm.org)) by clicking on the logos at the upper right hand corner. There, current students can find a wealth of up-to-date information crucial for their success including regular contests that challenges their medical knowledge. For prospective and new students this is an excellent way to learn about the school, program, professors and "friend" hundreds of students. So check it out and let us know what you think!

## TROUBLE LOGGING IN TO STUDENT PORTAL

If you are having trouble logging in to the Student Portal or are having problems with the Student Portal, please follow this procedure:

- Send an email to [help@mail.sjasm.org](mailto:help@mail.sjasm.org)
- Subject: **student portal**

In the email body please indicate this:

- First Name and Last name
- Contact number
- Student at Anguilla or Bonaire Campus

Please allow 48 hours for a response.

## IMMIGRATION DOCUMENTS

We would like to remind all students that they should have their passport or local residency permit as well as a student ID on them at all times. This refers to times you spend on the island, as well as when travelling back to your home country. Having these documents on hand will resolve any potential issues with island immigration.

## HEALTHCARE TECHNOLOGY TRENDS

Cardiologist Eric J. Topol, MD, was on a cross-country flight when an attendant made an announcement asking if there was a doctor on board.

Dr. Topol, chief academic officer for Scripps Health, responded and was brought to a man who was in obvious trouble. Only a year or two ago, Dr. Topol would have had to make an educated guess and hope he could take care of the patient until the plane landed.

This time, though, he pulled out his iPhone, and with an app that produces an electrocardiogram, he determined that the patient was having a heart attack. The plane made an emergency landing while paramedics waited on the ground to take the patient directly to surgery to open the blocked arteries causing the attack.
