

# SAINT JAMES SCHOOL OF MEDICINE STUDENT NEWSLETTER

Vol. 19 Issue 25 October 2012

## WANT TO LEARN MORE ABOUT PHYSIOLOGY?

The American Physiological Society (APS) has created [Learning Resources](#) to help medical professionals and students learn more about physiology through video clips, classroom activities, and fact sheets. The materials are contained in three primary sections: Digital Libraries, Content Updates, and Education Journals. Membership information is also available for students and Faculty.

## DELTA LOAN APPLICATION WINDOW

Students interested in applying for the Delta loan will be able to do so between October 23rd 2012 and November 15th 2012.

To find out more or to apply please visit the [Delta](#) page on the [SJSM's website](#).

## RESIDENCY APPLICATIONS

We are pleased to announce that this year we have submitted of Dean's letters in support of 83 student applications in the National Residency matching Program. We expect to start hearing the first pre-match results early next year and to have the official matching

announcements in the middle of March of 2013. We wish all students many successful interviews and great matches.

## RESEARCH JOURNAL

Starting this month, SJSM will publish the first issue of its online research journal, SJSM Science. This project is spearheaded by Dr. Branka Filipovic and with participation by the Deans and the faculty of both Bonaire and Anguilla campuses. The idea behind the project is to further promote research as part of the SJSM's curriculum, as well as to internally publish new findings by the students and faculty of SJSM. The journal can be found in the Research section of the school's website.

## EXAM MASTER USAGE

We have recently produced some interesting statistics from the usage of the Exam Master. According to Exam Master Corporation, Saint James School of Medicine is one of the top institutions in the world in usage of the system. Our students and faculty have conducted 25,344 logins, a total of 37,872 study sessions and 8,767 test sessions over the past 12 months. This number is almost twice as much as the previous month.

We are glad to see that this feature is being used extensively by our students and faculty, and we look forward to expanding this facility further in the future.
