### HAPPY HOLIDAYS FROM SJSJM

*Saint James School of Medicine would like to wish all of our students, faculty, staff and their families best wishes for the upcoming holidays.*

#### Loans and Grants

We had an overwhelming response to the new Barker Foundation grants and Delta Financial loans. These two organization made it possible for many students to fulfill their dreams and ambitions. Due to the success of these programs, we will continue the relationship in the future. Due to the limited number of grants and loans, we suggest to apply in advance. Any questions, please contact the SJSJM Park Ridge office.

#### Social Media

SJSJM is dedicated in building a strong network using social media sites like Facebook and Twitter. We had nearly 160 friends join our Facebook page in the past 2 weeks. We like to take on a challenge to reach 500 friends in Facebook or Twitter by the end of this month. If we reach 500 friends in either site, we will raffle off a brand new apple IPod nano. Take advantage of this offer and join today and have access to daily updates and useful information related to the school.

#### Basic Science Graduates

We would like to wish best of luck to the 47 graduates of our Basic Science program. We look forward to working with you in the Clinical Program.

#### Clinical Corner

Saint James would like to announce a partnership with South Shore Hospital in Chicago for elective rotations. This comes as a result of the continuing effort of the staff of Saint James to partner with more hospitals and give our students the best possible clinical training.

#### Library Web Page

Starting December 4th, earlier than anticipated, students and faculty are able to access online medical journals thru the Saint James website. All you have to do if click on the "Library" page under the "Resources" menu. You will need your student ID to log in. If you are experiencing any issues while logging in please send an e-mail to oscar@sjism.org.

#### Important Information

All MD4 students are **required** to register for the USMLE Step 1 examination before they take the final MD 4 exams. Please make sure that you register well in advance as the registration process takes about 10 business days to complete.

#### New Dean

Saint James School of Medicine is glad to announce that Dr. K.S. Satheesha, the Dean of Basic Sciences in Bonaire is taking on a new task as a Dean of Basic Sciences in our new campus of Anguilla. We are sure that with the leadership and experience Dr. Satheesha is bringing to the new campus, the growth of the campus is inevitable.

We are also pleased to announce Dr. Revinder Kenue, thus far the Dean of Student Affairs, a successor of Dr. Satheesha. Dr. Kenue's work and experience made him an ideal candidate for position of Dean of Basic Science in Bonaire. We look forward to working with both Dr. Satheesha and Dr. Kenue in their new roles.
