Issue No 25 Summer 2012

Surveillance of the Health Status and its Determinants for Residents of Saint Vincent Who Participated in the Health Fair Hosted by Saint James School of Medicine

Saint James School of Medicine has a long tradition of basic preventive medicine activities in local communities. Health Fairs are particularly popular. They are designed to detect and identify the potential health threats through a range of appropriately-targeted health screening tests. During the Health Fair participants are also offered advises essential for improving population health.

How it was organized this year at Saint Vincent? Well, if one picture is worth thousand words, we have more than that:

What the community thinks about it? Just follow the link http://thevincentian.com/st-james-medical-school-giving-back-p7872-1.htm
