*Your Future. Our Promise.™*

# INTENDED LEARNING OUTCOMES

1480 Renaissance Drive Suite 300, Park Ridge, IL 60068  
P: 800-542-1553 / F: 847-298-2539

# Competency 1.1

## Integration of the Basic Sciences in Medicine (Medical Knowledge)

### Learning Outcomes

### Education Courses / Activities

### Evaluation

#### Cognitive Domains

		Pharmacology	Neurosciences	Histology	Physiology	CCBS1	CCBS2	CCBS3	CCBS4	PDI	Ethics	Anatomy & Emb	Biochemistry & Microbiology	Epidemiology & Pathology	Pathology I	Pathology II	Internal Medicine	OB/GYN	Pediatrics	Family Medicine	Psychiatry	Surgery	Elective Rotation	Exams	Practicals	NBME	USMLE	Observation		
K1	Knowledge and understanding of the principles of evidence based medicine.	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X		
K2	Knowledge and understanding of the normal structure, function and development of the human body and mind at all stages of life and body-mind interactions. Knowledge and understanding of the genetic, developmental, metabolic, toxic, microbiologic, autoimmune, neoplastic, degenerative, and traumatic noxious effects on the body and mind.	X	X		X	X	X	X			X	X	X		X	X	X	X	X	X	X	X			X	X	X	X	X	
K3	Knowledge and understanding of the etiology, pathogenesis, pathology, symptoms and signs, natural history, and prognosis of mental and physical disorders in all age groups listed in the appendix and designed as "common".	X	X		X		X	X	X		X	X	X		X	X	X	X	X	X	X	X			X	X	X	X	X	
K4	Knowledge and understanding of common diagnostic procedures, indications, contra-indications and limitations listed in the App. 2. Knowledge of the appropriate use of laboratory techniques and hygiene and sanitization, asepsis, infection control, transmission.	X	X		X		X	X	X		X	X	X		X	X	X	X	X	X	X	X			X	X	X	X	X	

K = Knowledge

# Competency 1.2

#### Cognitive Domains

		Pharmacology	Neurosciences	Histology	Physiology	CCBS1	CCBS2	CCBS3	CCBS4	PDI	Ethics	Anatomy & Fmh	Biochemistry & Microbiology	Epidemiology & Pathology	Pathology I	Pathology II	Internal Medicine	Family Medicine	OB/GYN	Pediatrics	Family Medicine	Psychiatry	Surgery	Elective Rotation	Exams	Practicals	NBME	USMLE	Observation		
		K5	Knowledge and understanding of the basic principles of the management of conditions listed in the appendix and designed as "common" (pharmacological, physical, nutritional and psychological therapies). For conditions that require urgent assessment and treatment, more detailed knowledge of management and understanding are required.	X	X	X		X	X	X			X			X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X
K6	Knowledge and understanding of the action, metabolism, and toxic effects of drugs and their therapeutic applications, indications, contraindications and side effects.	X	X	X		X	X	X								X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	
K7	Knowledge and understanding of the principles of health maintenance, education, prevention and screening. Knowledge and understanding of the epidemiology of common diseases and conditions and the systematic approaches in reducing the incidence and prevalence of those diseases.	X	X		X		X	X			X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	
K8	Knowledge and understanding of the principles of management of suffering and disability, rehabilitation and the care of the dying, palliative and hospice care, basic pain mechanisms and basic strategies for pain management.	X	X				X	X	X							X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	

**K = Knowledge**

# Competency 1.3

## Integration of the Basic Sciences in Medicine (Medical Knowledge)

### Learning Outcomes

### Education Courses / Activities

### Evaluation

#### Cognitive Domains

		Pharmacology	Neurosciences	Histology	Physiology	CCBS1	CCBS2	CCBS3	CCBS4	PDI	Ethics	Anatomy & Emb.	Biochemistry & Microbiology	Epidemiology & Pathology	Pathology I	Pathology II	RHM	Internal Medicine	OB/GYN	Pediatrics	Family Medicine	Psychiatry	Surgery	Elective Rotation	Exams	Practicals	NBME	USMLE	Observation
K9	Knowledge and understanding of normal growth and development.	X	X	X	X	X	X	X	X		X	X		X	X		X	X	X						X	X	X	X	
K10	Knowledge and understanding of the principles and concepts of normal behavior and mental illness. Basic knowledge and understanding psychological, cultural and spiritual well-being of patients and their families, and the interactions between humans and their social and physical environment.	X	X					X	X	X						X	X	X	X	X	X	X	X		X	X	X	X	
K11	Knowledge and understanding of health care provision systems in a culturally diverse society, their advantages and limitations, the principles of efficient and equitable allocation and use of finite resources, and of local and national needs in health care and the delivery of service. Knowledge and understanding of the ethical principles of health care and the legal issues in medicine.	X	X					X	X	X	X					X	X	X	X	X	X	X	X		X	X	X	X	
K12	Knowledge and understanding of the normal structure and function of the body and of each of its major organ systems	X	X	X	X	X	X	X	X		X	X	X	X	X	X	X	X	X	X	X	X	X		X	X	X	X	
K13	Knowledge and understanding of molecular, biochemical, and cellular mechanisms of maintaining homeostasis.	X	X	X	X		X	X	X	X		X	X	X	X	X	X	X	X	X	X	X	X		X	X	X	X

IC8	In written, oral, interpersonal, or group presentations, show the effectiveness, critical thinking, creativity, and analytical ability.																		x	x	x	x	x	x		x		x	x			
IC9	Always demonstrate the respect towards others, reliability, responsibility, and honesty in communication with the patients, their relatives, colleagues, peers, medical staff and all other members of the health care team.																		x	x	x	x	x	x		x		x	x			
IC10	By showing appropriate listening and verbal skills to communicate empathy, they will elicit information related to the patient's preferences and provide basic information to the patient, explain the diagnosis, prognosis and treatment plan.																															
IC11	Establish the rapport with patients that will help in the identification of the hidden agendas and the recognition of the psychosocial issues, and take an active role in patient education and compliance issues.																		x	x	x	x	x	x		x		x	x			
IC12	Exhibit teamwork and respect toward all members of the health care team, and perform as an effective member of the team by showing adequate inter-professional communication skills.																		x	x	x	x	x	x		x		x	x			
IC13	Listen, give and receive feedback.																		x	x	x	x	x	x		x		x	x			

IC: Interpersonal and communication skills

# SJSM LEARNING OUTCOMES

**Intended Learning Outcomes (ILOs):** These are statements that describe the significant and essential achievements that are expected from a course or program, i.e.. what students should have achieved and can reliably demonstrate at the end of that course or program. These ILOs, taken together, must form the basis for a curriculum. The onus for the development of this falls within the responsibility of the medical faculty, whether individual or collective. The ILOs must also be used to formulate learning objectives for each educational unit.

**Learning objectives** are the specific intended results or consequences of instruction, curricula, programs, or activities. In medical education ILOs have been formulated in terms of expected competencies, hence there is a close relationship between the two.

**Competencies:** The list of competencies is based on the core competencies suggested by ACGME. On graduation, SJSM expects their students to obtain competencies in the following areas at the level of the beginning practitioner:

- Integration of the Basic Sciences in Medicine.
- Integration of Clinical Knowledge and Skills to patient care.
- Interpersonal and Communication Skills.
- Professionalism.
- Organization and Systems-Based approach to Medicine.
- Lifelong learning and Self-Improvement.

The medical faculties cannot confine themselves to isolated assessments of knowledge and skills.

**Cognitive Domains:** The essential and enduring knowledge, abilities (skills) and attitudes (values, dispositions) that constitute the integrated learning needed by a graduate of a course or program).
